

PITABAS PRADHAN

SKILLS

Languages: Java, C++

Web Technologies: HTML5, CSS, Bootstrap, JavaScript

Database/Query Languages: MySQL, MongoDB

Framework: React js, Node js, Express js

Containerization: Docker, GitHub

Interest Areas: Full stack web development, Programming, Android app Development

Tools: Apriso Tools, Power BI tools

PROJECT UNDERTAKEN

- **Notes Pro: (Android App) (View)**
 - Developed in java and XML, this application efficiently records daily tasks, including important meetings and events.
 - The app serves as a handy tool for noting and organizing daily tasks, ensuring efficient task management.
- **CodePen: (Web Application) (View)**
 - React-based web app providing a user-friendly interface for real-time HTML, CSS and JavaScript coding, fostering experimentation & displaying.
 - In the development of the project, React js serves as the core framework, ensuring a robust and responsive user interface.
- **Code Compiler (MERN): (Web Application)(View)**
 - Code Compiler is a MERN stack web App enabling users to write and run code in-browser, excluding MongoDB from its tech stack.
 - Supports JavaScript, Python, Java, C++, C etc.
- **WP Chat: (Android App) (View)**
 - Enables seamless user communication with real-time messaging, enhancing digital interactions for a connected and dynamic experience.
 - Developed using java, Firebase and XML.

DOMAIN EXPERTISE

- **Software Technology:** Web Services using java, Web Programming using React, Advanced java Programming || 1 year.
- **Apriso Development:** Proficient in Apriso process Builder, Apriso Desktop Client, and Apriso Global Process Manager || 1 year in leveraging these tools to enhance manufacturing operations efficiency.

EDUCATION

B. Tech. | Centurion University of Technology and Management | 02/2020-Present

Bachelor Degree in Computer Science Engineering with 9.1 CGPA (contd.)

Class XII |Anchalika Degree College Jagannath Prasad, CHSE | 03/ 2020

Passed Higher Secondary with 63%.

Class X | G S Nodal Bidyapitha, Kadua Mangarajapur, CBSE | 02/2018

Passed Matriculation with 57%.

OBJECTIVE

Dedicated and knowledgeable B.Tech. Student in computer science. I'm looking for an entry-level position in a cutting-edge company where I can use my inventive thinking, programming knowledge, and problem-solving abilities to create cutting-edge software solutions. devoted to lifelong learning and development within a cooperative team setting
